

**Decommissioned Books****June 2011**

The Birth of Blue Swan
At the Stroke of Madness
Dream House
The Seventh Unicorn
Bloodline
Bone Orchard
Hot on the Trail
Prince of Dreams
Midnight
Enchanting the Lady
The Face
Little Earthquakes
Light in Shadow
The Good Guy
50 Harbor Street
Montana Creeds: Tyler
Back on Blossom Street
Murder at the Spa
The Pagan Stone
Stars
Vanished
Morrigan's Cross
Dance of the Gods
Angels Fall
Black Rose
The Animals Among us: Wild life in the city
Estuarine Variability
The Estuary as a Filter
Ecosystem Structure and Function
Molecular and Cell Biology
Fundamental Ecology
To Live on Earth
Reproduction: Molecular, Subcellular, and Cellular
Biological Transport
Biogeography: an ecological Perspective
Restoration of Aquatic Ecosystems
Introduction to Experimental Ecology
Physiological Foundations of Behavior
Molecular Architecture in Cell Physiology
Biology and Physical Sciences
Evolution and the genetics of Population: Vol.: 2 The theory of Gene Frequency
Control theory and Physiological Feedback Mechanisms
The Ecology of Invasions by Animals and Plants

## Decommissioned Books

**June 2011**

Philosophers of the Earth
Wildness is all Around us
Stability and Complexity in Model Ecosystems
Energy Exchange in the Biosphere
A series of student Texts in Contemporary Biology
The New Biology
The Withering Rain
The Forest and the Sea
Cells and Societies
Conservation for Survival
The Interpretation of Ultrastructure
Symbiosis Vol.: 2 (Associations of Invertebrates, Birds, Ruminants, and other Biota)
Cytology and Cell Physiology
General Physiology of Cell Specialization
Biological Management and Conservation
The Balance of nature?
Evolutionary Ecology
Island Biology
Marine Ecology
Abyssal Environment and Ecology of the World Oceans
Marine Ecology: A Comprehensive, Integrated Treatise on Life in Oceans and Coastal Waters I
Marine Ecology: A Comprehensive, Integrated Treatise on Life in Oceans and Coastal Waters II
The Cell (Fawcett)
Ecology and Field Biology
Concepts of Ecosystem Ecology
Cell Structure
Life and Death in a Coral Sea
Cell Biology
Molecules to Living Cells
The Molecular basis of Life
Evolution Ecology and Environmental Stress
Natural Communities
Cell Structure and its Interpretation
Readings in Ecology
Environmental Science
The spheres of Life
Encountering the Environment
Ecology and Our Endangered Life-Support Systems
Basic ecology
Environment Power and Society
Nature's Economy
The Cell Vol.: I (Brachet Mirsky)
The Cell Vol.: II (Brachet Mirsky)
The Cell Vol. III (Brachet Mirsky)
The Cell Vol. IV (Brachet Mirsky)
The Cell Vol. V(Brachet Mirsky)

## Decommissioned Books

**June 2011**

The Cell Vol. VI(Bracket Mirsky)
Ecology and the Quality of our Environment
Communities and Ecosystems
The Cell in medical Science Vol.: 1
The Cell in Medical Science Vol.: 2
Microclimate: The Biological Environment
Cell Biology (De Robertis Nowinski Saez)
Aspects of the Biology of Symbiosis
The Cell (Swanson; Webster)
Unfit for Human Consumption
Weather and Life: An introduction to Biometeorology
Host-Parasite Relationships in Living Cells
The center of Life
Cell Biology (Modern views in Biology)
Textbook of Cytology
Cell Biology (E. J. Ambrose; Dorothy Easty)
Ecology Of Estuaries
Freshwater Ecology
Ecology of Fresh Water
An Introduction to Ecology & Population Biology
Earth, the Great Recycler
Life in Mud and Sand
Preserving the World Ecology
The Thin Edge
Techniques in Parasitology
Mimicry in Plants and Animals
Biological Oceanographic Processes
Mechanical Man: The Physical Basis of Intelligent Life
Adaptation
Plant-Animal Interactions
Life Between Tidemarks on Rocky Shores
Molecules and Life
Division of Labor in Cells
Biochemical Cytology
An Introduction to Quantitative Ecology
Principles of Ecology
Division of Labor in Cells
Under siege: Man, Men and Earth
The Cell: Chemistry and function
Cytology and Cytogenetic
Cytology and Evolution
The Cultivation of animal and Plant Cells
Environment and Man
Adaptation (2 <sup>nd</sup> Edition)
Keeping all the Pieces: Perspectives on Natural History and the Environment
Patterns of Survival

**Decommissioned Books****June 2011**

Adaptation in Natural and Artificial Systems
Cell and Molecular Biology
Explorations into the Nature of the Living Cell
General Cytology
The Organization of Cells and other Organisms
Cell Biology: A Current Summary
Cell Structure and Function (1)
Cell Structure and Function (2)
Cells and Organelles
Journey Onto Land
Readings in Aquatic Ecology
Essentials of Cell Biology (2 <sup>nd</sup> Edition)
Cell Structure and Function (2 <sup>nd</sup> Edition)
Environments in Profile
The Living Cell
Ecology: With Special Reference to Animals and Man
Inventory and monitoring of Wildlife Habitat
Our Vanishing Wilderness
Vertebrate Adaptations
Molecular Biology of the Cell
The Rocky Coast
The Cell (Life Science Library) Copy 1
The Cell (Life Science Library) Copy 2
